Arecont Vision® Receives Four 2017 New Product of the Year Awards

September 19th, 2017

Download document: EN

Los Angeles, CA (September 19, 2017) – Arecont Vision®, the industry leader in IP-based megapixel camera technology, has been recognized with four New Product of the Year Awards for megapixel cameras. The awards recognize the best solutions and products available across the security industry, and are sponsored by *Security Today* magazine.

Arecont Vision received more awards than any other vendor in the 2017 competition, and was the sole winner in each category in which the company's products were entered. Over 100 industry products were in the running across multiple award categories.

"We are extremely pleased to have so many of our newest megapixel camera series be recognized for the industry-leading designs and technology that will further benefit our customers around the world," said Jeff Whitney, Vice President, Marketing, Arecont Vision. "Arecont Vision changed the surveillance industry as an early pioneer in both megapixel and multi-sensor cameras, and we maintain in that leadership today. Our cameras continue to bring advanced features and outstanding image quality, while delivering unmatched cybersecurity protection, product upgradability, proven reliability, and high customer satisfaction."

Arecont Vision cameras awarded in the 2017 competition are:

- Cameras – IP Multi-Sensor Panoramic:

SurroundVideo® G5 Mini Panoramic Camera (180° and 360° models)

- Cameras – IP Multi-Sensor Megapixel:

SurroundVideo® Omni G3 Omnidirectional/Adjustable View Camera

- We'll be demonstrating our 4 newest award-winning families and our other industry-leading single, dual, and multi-sensor megapixel camera at ASIS

- Booth #3221
