General FAQ

Project Registration:
A price-protected quote for the single distributor and single integrator listed on the registration. There are two Requirements to maintain Project Registration Status:

- There should be a partnership for the duration of the project between Arecont Vision, Distributor, Integrator, and End User. (Example: Arecont Vision should be introduced to the End User and the registering entity should continue to promote Arecont Vision for the duration of the registered project.)
- Arecont Vision must be specified in the project by the time of registration.

Special Pricing:
A special price for multiple distributors or integrators. No individual price protection is given.

- Project Registrations may be retroactively turned into a Special Pricing registration.

Addendum:
An addition of Arecont Vision products to your Project Registration or Special Pricing.

Reprice Request:
A request for additional discounts on a Project Registration or Special Pricing registration.

- Additional discounts are not guaranteed, and the same pricing may be given for a reprice. Requestors must include a reason for reprice.

Extension Request:
A request to extend the expiration date for your pricing.

Expiration Date:
The date the Project Registration or Special Pricing expires.

PR Pricing:
The discounted Pricing received through the Online Project Registration System.

Purchase Date:
The expected date of the first purchase of Arecont Vision products.

Project Registration Number (PR#):
The project registration number must be included on every purchase order or credit request. The PR# includes:

- The Date
- The Actual Project Registration ID
- The Regional Sales Leader’s initials
- The Distributor
- The Project Name

(Example: 171110-65401-DC-Example Distributor-Project Name)
