

Arecont Vision® Technology Partner Program Adds Code Blue to Membership

Emergency Call Box Manufacturer is Now Program Member

Los Angeles, CA (May 8, 2017) – [Arecont Vision®](#), the industry leader in [IP-based megapixel camera technology](#), announced today that Code Blue Corporation has recently joined the Arecont Vision Technology Partner Program. Code Blue Corporation is the leading manufacturer of emergency communication solutions in their industry, and Arecont Vision cameras are successfully installed with Code Blue products in a wide variety of verticals and applications.

“More and more customers are enjoying the value of integrating cameras with our signature Help Point® enclosures,” Code Blue Chief Design Officer David Fleming said. “By combining Arecont Vision cameras with our emergency phones and software solutions, institutions can provide comprehensive security solutions for their locations.”

Founded in 1989 with a focus on making campus settings safer and more secure, Code Blue has expanded its emergency communications solutions with an extensive catalog of speakerphones and award-winning software and hardware offerings. Their products can be found in thousands of locations worldwide, from parking garages and corporations to open spaces and educational facilities.

“We are extremely excited to have Code Blue join the Arecont Vision Technology Partner Program,” said Jason Schimpf, Director of Marketing Programs. “Our joint customers have benefited from using Arecont Vision SurroundVideo panoramic 180° and multi-directional SurroundVideo Omni cameras with Code Blue towers to provide complete, non-stop high definition video coverage. These cameras provide much better

visibility and situational awareness around the call box than PTZs or fixed view single sensor cameras can achieve.”

The Arecont Vision Technology Partner Program established sales, development, and support contacts between the two companies. This connection facilitates better engagement with end users and integrators, helps produce new features and technologies, and aids in efficiently resolving customer support issues. Customers are already benefitting from integrated Arecont Vision and Code Blue installations.

###

ABOUT ARECONT VISION

Arecont Vision is the leading manufacturer of high-performance megapixel IP cameras. Arecont Vision products are made in the USA. MegaVideo® and SurroundVideo® massively parallel image processing architectures are now in their 5th generation and represent a drastic departure from traditional analog and network camera designs.

ABOUT CODE BLUE

For more than 25 years, Code Blue Corporation has been the industry leading manufacturer of durable emergency communication solutions. The pioneer in developing and producing vandal-resistant Blue Light Emergency Phones at thousands of education, corporate, hospital, airport and municipal locations around the world, Code Blue’s expansion includes the innovation of advanced public address and mass notification systems to provide a complete end-to-end solution.
