**Arecont Vision Named Camera Partner of the Year
by Milestone Systems**

Partnership Delivers Added Value to End Users with Collaborative Solutions and Events

(L-R) Scott Schafer, Executive Vice President, Arecont Vision, Lars Thinggaard, CEO, Milestone Systems, Jason Schimpf, Director of Partner Relations, Arecont Vision.

Los Angeles, CA (February xx, 2012) – Arecont Vision today announced that the company was selected as Milestone System's Camera Partner of the Year. The honor was awarded to Arecont Vision for its dedicated efforts and collaborative work with Milestone Systems in joint seminars, training programs, industry events, integration solutions, MegaLab™ certification and other activities.

Eric Fullerton, Chief Sales and Marketing Officer of Milestone Systems, presented the award to Arecont Vision at the Milestone Integration Platform Symposium (MIPS) held February 13-14 in Fort Lauderdale, FL. Milestone Systems is a leading global developer of open platform software for managing IP network-based video surveillance.

In presenting the award, Mr. Fullerton said, "We are pleased to recognize Arecont Vision as Milestone's Camera Partner of the Year. Their innovative megapixel camera technology has helped raise the standard of IP video surveillance."

"We are deeply appreciative of the recognition this award conveys," said Scott Schafer, Executive Vice President, Arecont Vision. "For Arecont, partnering with Milestone is a winning strategy, with our mutual vision providing added value to end users in capturing and managing IP video surveillance."

ABOUT ARECONT VISION

Arecont Vision is the leading manufacturer of high-performance megapixel IP cameras and associated software. Arecont Vision products are made in the USA and feature low-cost massively parallel image processing architectures MegaVideo® and SurroundVideo® that represent a drastic departure from traditional analog and network camera designs. All-in-one products such as the MegaDome®, MegaView™ and D4F/D4S/D4SO series provide installer friendly solutions. Compact JPEG and H.264 series of cameras address cost sensitive applications. These innovative technologies enable Arecont Vision to deliver multi-megapixel digital video at IP VGA camera price points.
