**Wireless Remote**

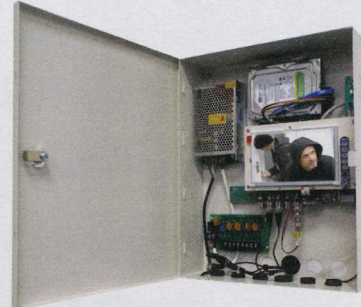

The Wireless Remote is designed to put an alarm system at a user's fingertips with no codes to remember. The remote is 100-percent compatible with alarm panel manufacturer products and features four programmable, silk-screened but-

tons and a replaceable lithium battery (CR2032) that has a five-year life. The FCC- and IC-approved device is water-resistant and offers an extensive wireless range. *Ecolink.*

**Speco Technologies**  
**Wall Mount DVR**

Speco's patented Wall Mount DVR is designed to provide a covert strategy while limiting onsite user access. The unit's concealed design is suitable for projects with limited space and helps deter employees from tampering or inadvertently changing the DVR's settings. The DVR includes an optional built-in monitor and camera power supply. *Speco Technologies.*
